

## Asset Tagging & Verification

Are your Assets

**SAFE, PROTECTED & TRACEABLE**

within your company?

## PLAN, IDENTIFY, VERIFY & REPORT

### OVERVIEW

When your company has thousands of physical assets, it's crucial to know their traceability & location. From computer monitors to industrial tools, identifying, tracking and controlling your inventory with tags is critical to your company's smooth operation.

Inventory and control systems help you track and prevent theft of your assets. You can manage the physical assets that helps you to make more informed decisions regarding physical inventory, such as when to repair or replace items.

### Benefits of Tagging & Verification

## OUR METHODOLOGY

## STATE OF ART TAGGING SYSTEM

### NUMBERED ASSET TAGS

In numbered assets tags system, serial numbers are printed on assets tags or asset label and arranged in a numerical order on the fixed assets for tracking.

### BAR CODE TAGS

In bar code tags system, an optical machine readable serial number is used to tag the assets. These labels serve as asset tags

### RFID TAGS

RFID tagging is an ID system that uses small radio frequency identification devices for tracking of Assets

\*FAR: Fixed Asset Register

\*RFID: Radio Frequency Identification
